

# TRADINVESTE ADVISED ENEIDA ON A NEW FUNDING ROUND

**Tradinveste** ([www.tradinveste.com](http://www.tradinveste.com)), the Portuguese branch of **CFI** ([www.thecfigroup.com](http://www.thecfigroup.com)) advised Eneida, Wireless & Sensors, S.A. (“**Eneida**”) on its latest funding round subscribed by the private equity **HCapital** and **InnoEnergy**.

These investors join up with **Portugal Ventures**, shareholder at **Eneida**, and the company founders, thus creating a solid shareholder group that will allow **Eneida** to go from strength to strength by developing its product portfolio and to consolidate its internationalization strategy.

**Eneida** ([www.eneida.io](http://www.eneida.io)) is a Portuguese technology company, that developed an Energy IoT Platform, DeepGrid® for the optimization of the Low-Voltage Network. Amongst their clients are some of the largest European energy companies allowing them to provide them a faster integration in their network of Distributed Energy Resources and a high quality, secure, and affordable energy supply.

**Portugal Ventures** ([www.portugalventures.pt](http://www.portugalventures.pt)) is a venture capital firm that invests in seed rounds of Portuguese startups in tech, life sciences and tourism, managing assets in the value of € 260M through 18 venture capital funds to invest in seed investment rounds.

**HCapital New Ideas** ([www.hcapital.pt](http://www.hcapital.pt)) is a specialist fund of the Portuguese Private Equity **HCapital**, dedicated to innovation matters and investments, focusing on Energy, Mobility and Smart Territories. It was founded in October 2017 with a € 20 M capital and this was their first investment.

**InnoEnergy** ([www.innoenergy.com](http://www.innoenergy.com)) is a European organization aiming to be the leader in the promotion of innovation and entrepreneurship in the Sustainable Energy business, by supporting and investing in all steps of the development process. With this transaction they will strength their position as an innovation promoter of sustainable energy, by supporting Start-Ups on their path to successful and sustainable business growth.
